

Save the date - KickCancer's Patients Conference

Improving care and research for AYA

The Belgian [KickCancer Foundation](#) – the mission of which is to cure every child with cancer and restore them to full health - organises a conference on **Friday 26 May 2023** to present the topic of **“Improving care and research for Adolescents and Young Adults (AYA) with cancer”** (practical info below).

The aim is to establish a 360° approach on the subject matter; as a result, we shall invite representatives from all backgrounds:

- Patients
- Healthcare professionals (both paediatric and medical haematologists & oncologist, nurses, psychologists, care coordinators)
- Sciensano, KCE, RIZIV/INAMI & FPS Health
- International experts

This conference would be an ideal starting point to discuss to understand and structurally address the situation of care and research for AYA with cancer in Belgium.

We are happy to invite you to attend and hope you and your interested colleagues are available to attend.

Please block your calendar; a proper invitation with a registration link will be sent early April.

Practical information about the conference

- Friday 26 May, from 2 p.m. to 7 p.m.
- Brederodestraat 13, 1000 Brussels (Linklaters offices)
